

## Nokia N97

The world's most advanced mobile computer, which will transform the way people connect to the Internet and to each other. Designed for the needs of Internet-savvy consumers, the Nokia N97 combines a large 3.5" touch display with a full QWERTY keyboard, providing an 'always open' window to favourite social networking sites and Internet destinations.

Nokia's flagship Nseries device introduces leading technology - including multiple sensors, memory, processing power and connection speeds - for people to create a personal Internet and share their 'social location.'
